

MOON GARDEN

UN LUGAR PARA **CONECTAR** CONTIGO MISMO

Un proyecto único para República Dominicana, una oportunidad para crear un nuevo hito en uno de los mayores paraísos del mundo.
Inspirados por una visión, un alma y una historia claras. Esto crea elementos tan impactantes que se puede sentir la devoción en cada uno de los aspectos de la experiencia.

SPECIFICATIONS

STRUCTURE, FACADE AND ROOF

STRUCTURE

- Foundation in accordance with the Geotechnical Study. Earth
- retention and perimeter walls constructed using piles and/or reinforced concrete walls in accordance with the geotechnical study and current regulations. Reinforced concrete structure, framed or
- lightweight slab.

FACADE

- Traditional concrete block with a single-layer finish or similar. Interior lining using an aluminum perimeter system and finished with plasterboard.

DECK

- Non-trafficable roofs with a gravel finish.
- Trafficable rooftops with a porcelain finish.

PETOS

- Combination of composite or similar parapets with glass railings on terraces. Interior lining of exterior cement board.

EXTERIOR AND INTERIOR CARPENTRY

EXTERIOR CARPENTRY

- Exterior joinery in Cortizo or similar aluminum, anthracite gray.
- Double-glazed windows with air gap.

INTERIOR CARPENTRY

- Front door lacquered on the inside and fitted with a peephole. Interior passage doors
- made of MDF board and lacquered in white or oak finish.

INTERIOR PARTITION WALLS

- Interior partitions are constructed using plasterboard walls anchored to a 9 cm Thermofast system.
- Separation between apartments and in common areas is achieved using a 12 cm Thermofast system, with aluminum perimeter framing on each side and a plasterboard finish.
- In all cases, water-resistant plasterboard is used for damp areas.

SOLADOS Y ALICADOS

- Large-format ceramic stoneware tiles. High-quality porcelain stoneware flooring
- for both interior and exterior use in homes.

PAINTINGS AND FALSE CEILINGS

- Suspended ceilings made of plasterboard throughout the house. Water-resistant boards for damp and exterior areas. Smooth white plastic paint on vertical and
- horizontal surfaces.

SANITARY WARE AND FAUCETS

- White vitreous china toilet with dual flush.
- Walk-in shower tray with the same flooring as the bathroom.
- Single-lever shower column with chrome finish.
- White vitreous china washbasin and single-lever faucet with chrome finish.
- Bathrooms equipped with mirrors and accessories.
- All faucets will be stainless steel (Grohe, Noken, Cisa, or similar).

INSTALLATION OF TAPS AND HOT WATER

- Individual plumbing installation for each apartment. Domestic hot water
- generation via 30-50 liter vitrified water heater depending on the size of the dwelling.

ELECTRICAL AND TELECOMMUNICATIONS INSTALLATION

- Complete installation in compliance with current regulations.
- Top-quality electrical components. Individual meters per dwelling.
- Weatherproof sockets on terraces. LED lighting.

HEATING, ACTION AND CLIMATE

- Mini VRF with more efficient inverter compressor technology. Room-by-room temperature control.

COMMON AREAS

- Vegetation: Landscaping with native and low-water-consumption plant species. Entrance halls, elevator lobbies, and apartment access corridors are paved with porcelain stoneware.
- Lighting in common areas, including entrances, hallways, and exterior spaces, is provided by energy-efficient lamps.
- Presence detectors with timers will be installed to control lighting in entrance halls, stairwells, and floor lobbies, thus reducing electricity consumption in common areas.
- Elevators will feature energy-efficient lighting in the cabins, be accessible, have automatic doors, and stop on each floor.
- Pre-installation for electric charging stations for golf carts, bicycles, and electric cars is also included.
